

NOTE:

- You have 15 minutes to connect a normal or trickle charge connector to the vehicle after the immediate charge switch is pushed. If a charge connector is not connected to the vehicle within 15 minutes, the vehicle automatically returns to the previous setting.
- To cancel immediate charge mode push the immediate charge switch again.
- If the charge cable is disconnected, the Li-ion battery automatically switches to charging timer. To perform an immediate charge again, push the immediate charge switch and connect the charge cable.
- If the charge cable is already connected, push the immediate charge switch to start performing an immediate charge.

CHARGING RELATED REMOTE FUNCTION (models with Navigation System)

This vehicle incorporates a communication device that is called a TCU (Telematics Communication Unit). The communication connection between this unit and NISSAN Data Center allows for various remote function services.

• Remote battery status check:

The charging status of the Li-ion battery can be checked using the "NissanConnect® EV & Services", or "NissanConnect® Services", app or Owners Portal even if you are not in the vehicle.

• Remote start charge:

The function of starting the Li-ion battery charge or starting the heater and air conditioner is available using your personal computer or internet enabled smart phone.

• Plug-in reminder:

A notification e-mail will be sent to your personal computer or internet enabled smart phone if the plug is not connected at the specific time you selected, after turning off the power switch.

NOTE:

- Establishing the NissanConnect® EV & Services, or NissanConnect® Services, is necessary before using this service. For additional information, refer to the NissanConnect® Manual (for Leaf).
- To check the Li-ion battery charging status using an internet enabled smart phone or personal computer, the following conditions must be met:
 - The vehicle must be located in a cellular phone coverage area.
 - The cellular phone must be located in an area with cellular phone coverage.
 - If using a computer, the computer must be connected to the internet.
 - Some cellular phones are not compatible and cannot be used to check the Li-ion battery charging status. Please confirm beforehand.
- Certain remote functions require a compatible smart phone, which is not included with the vehicle.
