

Steering Wheel

Adjusting Steering Wheel Position

To adjust the steering wheel, touch **Controls** and touch the **Steering** icon.

Use the left scroll button on the steering wheel to move the steering wheel to the desired position:

- To adjust the height/tilt angle of the steering wheel, roll the left scroll button up or down.
- To move the steering wheel closer to you, or further away from you, press the left scroll button to the left or right.

 **WARNING:** Do not make steering wheel adjustments while driving.

Adjusting Steering Effort

You can adjust the feel and sensitivity of the steering system to suit your personal preference:

1. On the touchscreen, touch **Controls** > **Pedals & Steering** > **Steering Mode**.
2. Choose a steering option:
 - **Comfort** - Reduces the effort required to turn the steering wheel. In town, Model Y feels easier to drive and park.
 - **Standard** - Tesla believes that this setting offers the best handling and response in most conditions.
 - **Sport** - Increases the effort required to turn the steering wheel. When driving at higher speeds, Model Y feels more responsive.

Scroll Buttons

A scroll button is located on each side of the steering wheel. Use your thumb to press this button to the right or left. You can also press the button or roll it up or down.

1. Use the left scroll button to:
 - Control the volume. Press the scroll button to mute/unmute the volume, roll the scroll button up to increase the volume or down to decrease the volume.
NOTE: The scroll button adjusts the volume for media, navigation instructions or phone calls based on what is currently in use. As you adjust volume, the touchscreen displays the volume level and whether you are adjusting volume for media, navigation or phone calls.
 - Push the scroll button to the right to go to the next song, station, or Favorite (depending on what's playing). Push the scroll button to the left to return to the previous selection.
 - Adjust the position of the exterior mirrors (see [Adjusting Exterior Mirrors on page 52](#)).
 - Adjust the position of the steering wheel (see [Adjusting Steering Wheel Position on page 50](#)).
 - Adjust the angle of the headlights (see [Headlight Adjustments on page 57](#)).

2. Use the right scroll button to:
 - Speak a voice command. Press the button to initiate a voice command (see [Voice Commands on page 144](#)).
 - When using Traffic-Aware Cruise Control, adjust your set speed and the distance you want to maintain from a vehicle traveling ahead of you (see [Traffic-Aware Cruise Control on page 88](#)).

NOTE: The arrows associated with the scroll buttons are backlit in low ambient lighting conditions. To turn this backlighting on or off, touch **Controls** > **Lights** > **Steering Wheel Lights**.

To restart the touchscreen, press and hold both scroll buttons until after the touchscreen turns black. See [Restarting the Touchscreen on page 6](#).

Heated Steering Wheel

To warm up the steering wheel (if equipped), touch the fan icon on the touchscreen to display climate controls (see [Adjusting Climate Control Settings on page 124](#)), then touch the heater icon to display the heaters tab. Touch the steering wheel icon. When turned on, radiant heat keeps the steering wheel at a comfortable temperature.

NOTE: Depending on date of manufacture, your Model Y may not be equipped with a heated steering wheel.

Horn

To sound the horn, press and hold the center pad on the steering wheel.
