

### Bluetooth

- ▶ Applies to MMI: Select on the home screen:  
**SETTINGS > Connection settings > Bluetooth®**

#### Bluetooth®

You can select a setting for visibility of the MMI to other Bluetooth devices. To connect a new Bluetooth device, the **Visible** setting must be selected. If **Invisible** is selected, a Bluetooth connection will only be possible with paired devices. If **Off** is selected, no Bluetooth device can be connected.

#### Bluetooth® audio player

When this function is switched on, the profile will load automatically when your Bluetooth audio player is within range.

#### Bluetooth® name

The MMI's Bluetooth name is displayed and can be changed.

#### Tips

The *name of the Wi-Fi hotspot* and the *Bluetooth name* are automatically compared when there are changes.

### Factory default settings

Requirement: the ignition must be switched on.

- ▶ Applies to MMI: Select on the home screen:  
**SETTINGS > System maintenance > Restore factory settings.**
- ▶ Follow the system instructions.

The settings will be reset. The system will restart. This may take some time.

#### Tips

Make sure that not only the settings were deleted but also the stored data, if applicable.

## Software update

### Introduction

Applies to: vehicles with software update

You can update your vehicle's software.

The functions depend on the country and vehicle equipment:

- Update through the online system update  
⇒ *page 234.*
- Map material update for the navigation system  
⇒ *page 210.*
- Have the software update performed by an authorized Audi dealer or authorized Audi Service Facility. This can result in additional costs.

#### WARNING

- Perform the installation only when the vehicle is stationary. Otherwise, this increases the risk of an accident
- If the installation fails, contact an authorized Audi dealer or authorized Audi Service Facility immediately to have the malfunction corrected.

### Online system update

Applies to: vehicles with online system update

With the online system update, you can update the software directly in the vehicle.

Requirement: the MMI must be connected to the Internet ⇒ *page 193, Audi connect.*

#### Downloading updates

Requirement: notification for an online system update will appear in the upper display.

- ▶ Press on the notification, or
- ▶ Open the notification in the notification center on ⇒ *page 21* and press on the notification.
- ▶ Follow the system instructions.

You can also check manually if an update is available.

- ▶ Applies to: MMI: Select on the home screen:  
**SETTINGS > System maintenance > Software update > Search for updates > desired update > Continue.**
- ▶ Follow the system instructions.

The MMI will start the download. You can check the status of the download process in the notification center ⇒ *page 21.*

## Installing updates

Requirement: an online system update must be downloaded and a notification must be shown in the upper display.

- ▶ Stop the vehicle safely.
- ▶ Press on the notification, or
- ▶ Open the notification in the notification center on ⇒ *page 21* and press on the notification.
- ▶ Follow the system instructions.

Depending on the scope of the update, the online system update may only be started if you follow these instructions:

- ▶ Switch the emergency flashers off, if necessary
- ▶ Make sure that the starter battery is charged.
- ▶ To start the update, exit and lock the vehicle.

The MMI will start the installation. When the update has ended, a notification will be displayed.

### WARNING

Depending on the scope of the installation, the ignition must not be switched on during the installation to ensure the installation completes successfully.

### Note

Read the information about Audi connect, and be sure to note the connectivity costs section ⇒  in *General information on page 193*.

### Tips

The software update may take some time.

## Messages

Applies to: vehicles with online system update

The following messages may appear depending on the vehicle equipment:

### **Online system update: incomplete. Warning! Vehicle functions limited**

If an error occurs when installing an online system update, certain functions such as the emergency call function may not be available. Drive to an authorized Audi dealer or authorized Audi Service Facility immediately to have the malfunction corrected.

## Connected devices

### Displayed connected devices

Requirement: the vehicle must be stationary and the ignition must be switched on.

- ▶ Applies to: MMI: Select on the home screen: **SETTINGS > Connected devices**.

Possible menu items:

- **Telephone 1**
- **Telephone 2**
- **Audio player**
- **Wi-Fi hotspot**
- **Headset**

### Audi smartphone interface

You can connect your smartphone to the MMI ⇒ *page 230*.

### myAudi app

This function is available if the myAudi app is installed on your mobile device and started, and if the mobile device is connected with the vehicle's Wi-Fi hotspot.

### Note

Read the information about Audi connect, and be sure to note the connectivity costs section ⇒ *page 193*.

### Managing connected devices

Requirement: the connected devices menu must be displayed ⇒ *page 235*.

### Connecting a device

Requirement: Bluetooth visibility must be activated in the MMI ⇒ *page 234* and mobile device.

- ▶ Press on a menu item, such as **Telephone 1**.
- ▶ To search for and connect your mobile device, press **New connection** ⇒ *page 182*.

### Selecting a connected device

- ▶ Press on a menu item, such as **Telephone 1**.
- ▶ Press on the desired mobile device in the list of displayed devices. The connection will be made. ▶
